

Web Safety
Webinar

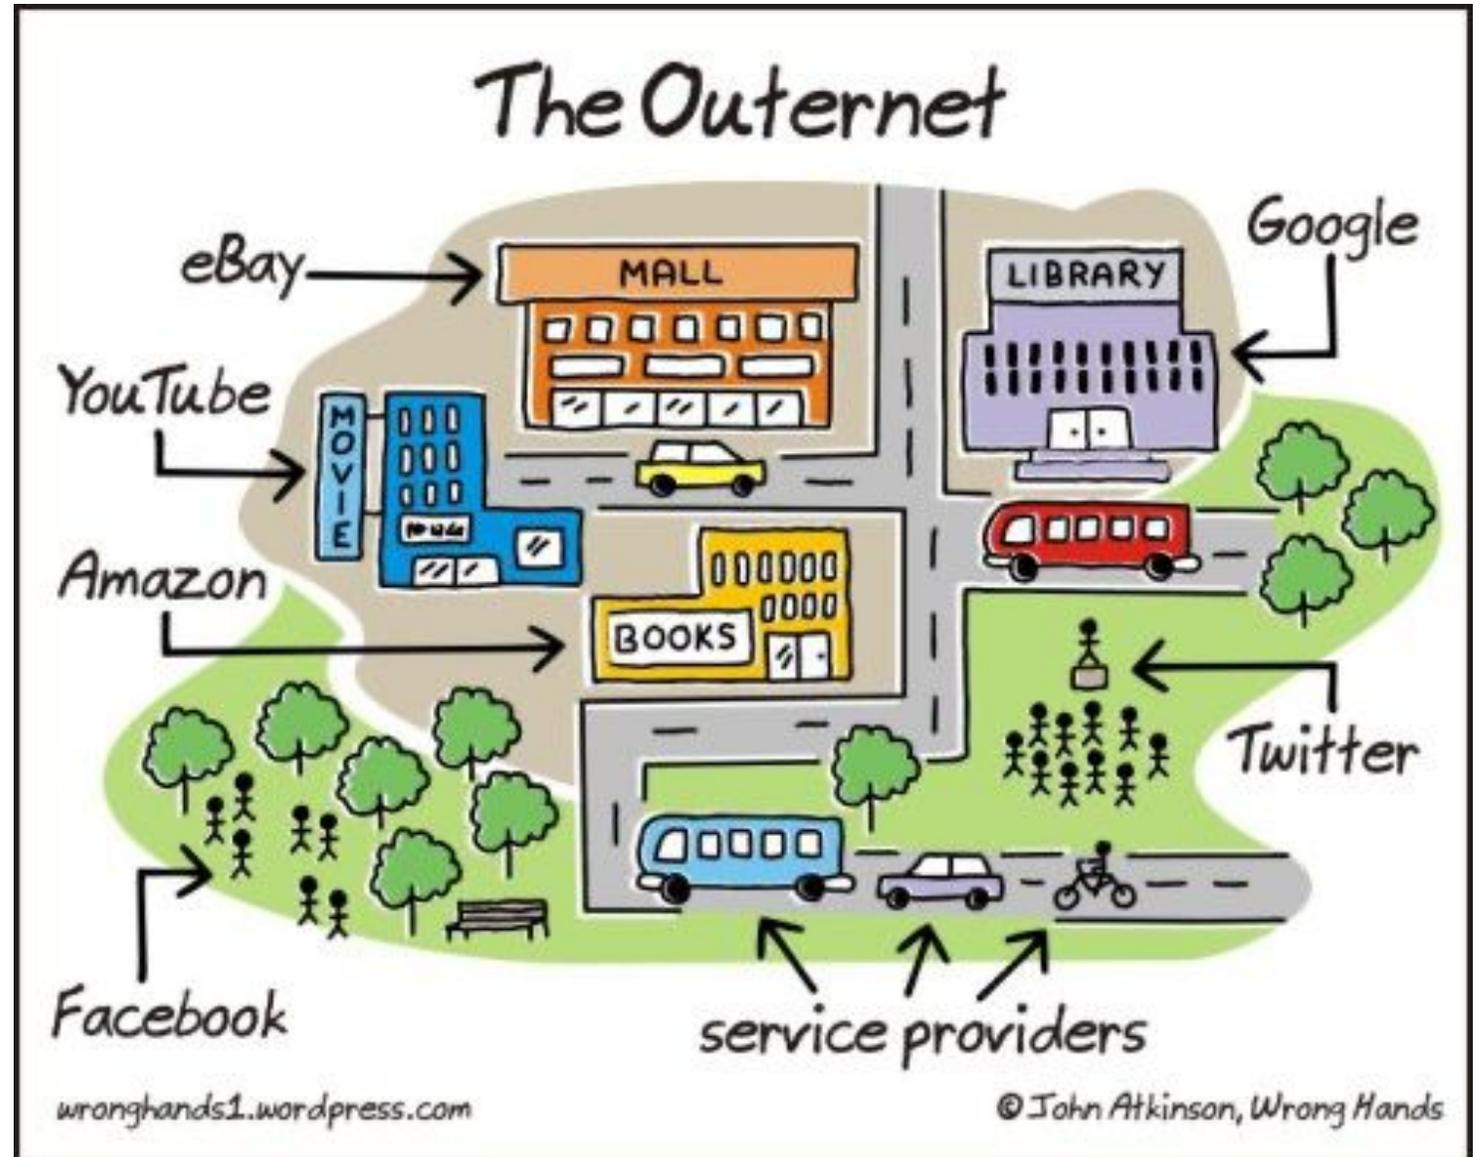

What We do in Web?

- Web is virtual space where we find any information any time, any where.
- We can contact with other people.
- We can shop.
- We can have fun such as watch movie, listen music or read anything.
- Also, we keep our personal data such as passwords, id information, bank account number, photos, or user accounts.

If Internet was a Quarter

Web Safety

- We need to be safe in web.
- We need to protect ourselves and others from online harms and risks which may jeopardize their personal information, lead to unsafe communications or even effect mental health and wellbeing.
- Safe web experience should be ensured on Laptops, Smartphones, or Tablets.

Be careful about..

Online bullying

Fake news in social media or fake websites.

Loss of personal data such as our passwords, bank account number etc.

Inappropriate content.

Risks can come any means in the web.

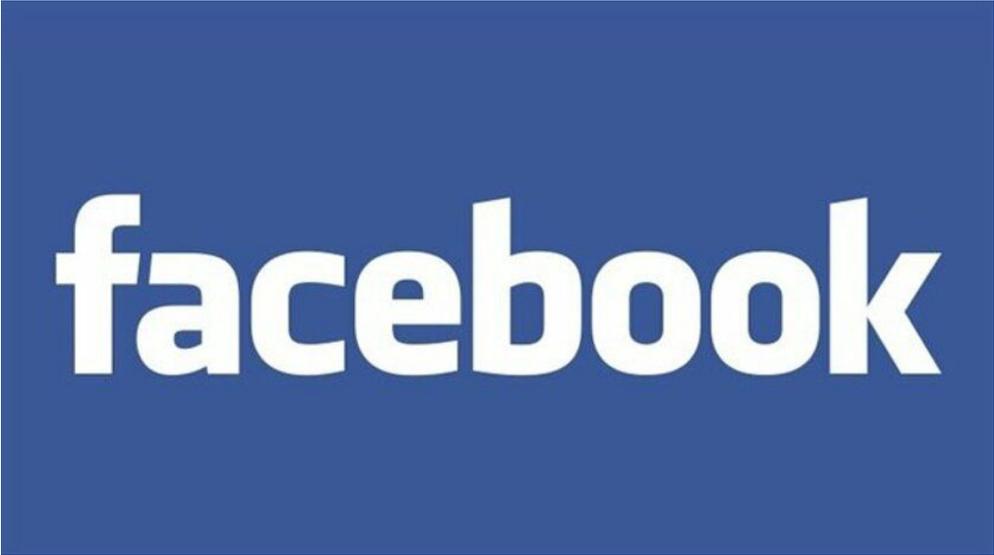

- Risks can come when we use of electronic means such as instant messaging, social media, e-mail, or web surfing.
- We can use special applications and programs for keeping the information safe.
- Be safe, be happy!

Facebook and Youtube

facebook

- Facebook is a website which allows users, who sign-up for free profiles, to connect with friends, work colleagues or people online.
- We can share pictures, music, videos, and articles, as well as their own thoughts and opinions with however many people they like.

The Facebook logo, consisting of the word "facebook" in a white, lowercase, sans-serif font, centered within a solid blue rectangular background.

facebook

- When your friend accepted your friend request, the two profiles are connected with both users able to see whatever the other person posts.
- Don't add any person or join any group you do not know.

The Facebook logo, consisting of the word "facebook" in white lowercase letters on a blue rectangular background.

facebook

- YouTube is a free video sharing website that makes it easy to watch online videos.
- We find all kinds of videos on YouTube—adorable cats, quirky cooking demos, funny science lessons, quick fashion tips, and a whole lot more.

Why use YouTube?

- We can create a your personal account.
- We can create and upload our own videos to share with others.
- We can find videos to learn something.
- We can add videos to teach something or introduce something.
